

AWARENESS PROGRAMME AT VELAMMAL SCHOOL

On the occasion of Cancer Awareness Day, the middle wing students of Velammal Matric., Poneri organized a cancer awareness programme recently. As cancer is the leading cause of death worldwide today, with millions of new cases diagnosed every year, a special assembly was conducted to enlighten students about this dreadful disease.

Students spoke about how this disease arises, the types that are very common and its symptoms, preventive and curative methods. The highlight of the awareness programme was the skit and special song which drove home the message of daily exercise, healthy food habits and seeking early medical care to prevent cancer. The students were given pamphlets to educate them on the dos and don'ts for cancer.
