

VELAMMAL
ENGINEERING COLLEGE

Velammal is
another name for **Victory!**

A good start is halfway to Success.

Velammal has always been amongst the top 5 engineering colleges in Tamil Nadu affiliated to the Anna University. Velammalians have created history by securing top University Ranks in all the courses, year after year. The academic achievements and the placement record of its talented students has always been the best in the industry.

Velammal Engineering College has emerged as a pioneering technical institution in the country open for striving aspirants, who are ready to join the league of successful Velammalians working globally.

Velammal has emerged as one of the very few educational groups in the state to lead the current generation with contemporary curriculum in Engineering, Technical and Professional education. Today, it is all set to raise its bar by investing huge funds in several research-based programmes and projects. These research-oriented programmes will not only help faculty but also students to understand the current industrial practices followed globally.

Infrastructure

VEC has always applied modern teaching-learning facilities that suit the new generation learners and are ideal for grooming future technocrats and successful civil servants. The entire campus is networked through the latest technology and Wi-Fi facility making it a truly global classroom.

Library

The Library-Media Centre stocks a huge collection of classified textbooks, reference books, periodicals and subscribes to nationally and internationally reputed journals. Exclusive collection of reports and case studies for research make the VEC library unique.

Faculty and e-Learning

The experienced and dedicated faculty at VEC are drawn from the industry and leading institutions; some of them are also practicing professionals and academicians. They use the latest technology provided in e-classroom to drive home the point clearly and emphatically.

Research-oriented Learning

VEC has the latest equipment in the laboratories in all its departments to help students and faculty undertake research-oriented projects to acquire all the needed skills to understand the contemporary and industrial practices to succeed in this highly competitive working environment.

ICT Facilities

The technology-enabled futuristic campus of VEC is scientifically planned and artistically designed with an array of modern amenities to groom confident leaders. The campus has excellent ICT facilities to groom students in this digital age.

Placement & Incubation Centre

VEC Incubation Centre is an initiative to provide a nurturing environment to budding talents to prosper and flourish. This is an earnest attempt to bring academia and industry closer through innovation to provide best placement learning environment for the aspirants.

The students of Velammal Engineering College are guided by an innovative and trans-disciplinary approach to not only succeed in acquiring knowledge but also build a positive mindset much needed in this competitive world.

Velammal Engineering College Advantages:
